Education

Jaypee University of Information Technology (JUIT)
B.Tech in Computer Science Engineering (AI & ML)

Solan, Himachal Pradesh
2023 – Present

Experience

DevOps Intern

March 2026 – Present

Bharti Airtel

- Monitoring cloud infrastructure logs, metrics, and operational workflows in a live production environment.
- Improving system visibility and reliability tracking using DevOps observability tools and dashboards.
- Working on deployment workflows and gaining hands-on experience with observability fundamentals.

Projects

AI Based Resume Parser | *Python, NLP, FastAPI* | GitHub

- Parsed PDF/DOCX inputs using spaCy NER pipelines and custom Regex patterns; serialized extracted entities (skills, education, experience, contacts) into structured JSON via FastAPI REST endpoints.
- Built modular FastAPI routes with Pydantic schema validation for request/response handling, enabling plug-and-play integration with external ATS and HR platforms.

Expense Tracker Application | *Flutter, Firebase* | GitHub

- Implemented full CRUD on Cloud Firestore with user-scoped document references and real-time **StreamBuilder** listeners for live UI sync across Android and iOS.
- Integrated Firebase Auth (email/password) with UID-based Firestore security rules for session management and per-user data isolation.
- Developed category-wise expense filtering, budget threshold alerts, and account management screens following Material Design 3 component guidelines.

Technical Skills

Languages: C++, Python, Dart, SQL, Kotlin, HTML, CSS, JavaScript

Frameworks / Tools: Flutter, Firebase, FastAPI, Git, GitHub, Android Studio, VS Code

Cloud / DevOps: Cloud Observability, Monitoring, DevOps Fundamentals

ML / NLP Libraries: NumPy, Pandas, scikit-learn, spaCy, Regex

Core Subjects: DSA, DBMS, Operating Systems, Computer Networks, OOP

Achievements

- Solved 115+ coding problems on GeeksforGeeks covering arrays, recursion, trees, graphs, and dynamic programming.
- Focused on optimization, problem-solving efficiency, and clean coding practices.
- GeeksforGeeks Profile: aryaman0001
